👤 Professional Summary

Experienced Data Analytics with a strong background in Software Engineering. Skilled in designing and developing efficient solutions, leveraging programming languages and analytical tools to drive data-driven insights. Proven ability to solve complex problems and deliver high-quality software solutions in fast-paced environments.

🏢 Work Experience

» Associate Statistical Programmer

Clindata Pvt Ltd Sri Lanka 2024-03 to 2024-12

Skilled in developing and validating statistical programs using tools like SAS. Experienced in data cleaning, analysis, and generating reports such as tables, listings, and figures. Proficient in managing datasets, ensuring accuracy, and collaborating with cross-functional teams to deliver actionable insights.

» Junior Associate Statistical Programmer

Clindata Pvt Ltd Sri Lanka 2023-03 to 2024-03

Proficient in SAS programming, data cleaning, and generating statistical reports. Certified in GCP and GLP, with attention to detail and commitment to supporting data analysis and team objectives.

» Associate Software Engineer

Zuse Technologies 2022-04 to 2023-02

Skilled in HTML, CSS, Laravel, and JavaScript, developing responsive web applications, implementing dynamic features, and optimizing performance for seamless user experiences.

👊 Key Strengths

Being punctual, deliver on time, working smart, and works around the clock.

🧠 Skills

- Problem Solving
- Critical Thinking,
- Flexibility, Teamwork
- Creativity
- Attention to Detail
- Responsibility

🏆 Competent with

SAS, Html, Css, JavaScript, SQL, Python,Power Bi, AWS,EtlS, NoSql(MongoDB), R-studio,

🎓 Education

✓ 2018 - 2021

University of Jaffna

Bachelor of Science(Physical Science)

- Studied Statistics, Mathematics and IT
- Studied Statistical Programming Language (SPSS, R)

✓ 2021-2023

University of Colombo School of Computing

Bachelor of information technology (Diploma)

✓ 2016

GCE Advanced Level

R/Ananda Maithriya Centrel College,Balngoda

2 C Passes for Combined Mathematics and Chemistry and S Pass for Physics

🌟 Other Qualification

- » R Programming: Advanced Analytics In R For Data Science - Udemy
- » R for statistics and Data Science - Udemy
- » Python for beginners - University of Moratuwa

🎓 Projects

» Web Application for Digital Library

Developed Web base digital library
Fronted developed with React Backend developed with
Laravel and use MySQL for DB connection

» Diabetic ML Prediction Model

Using python libraries (Pandas, Numpy, sklearn, etc)
predict dieabetc Using LinearRegression

» Web Application For Jobportal

Developed Web base Jobportal
Fronted developed with php blade Backend developed with
Laravel and use MySQL for DB connection
